中国·德阳

投资德阳就是投资成都

INVESTMENT IN DEYANG IS EQUAL TO INVESTMENT IN CHENGDU

德阳是成渝地区双城经济圈重要节点城市和支撑成都都市圈高质量发展的重要功能板块，下辖6个区（市、县）和1个国家级经开区、1个国家级高新区，面积5911平方公里，常住人口345.3万。现有规上工业企业1521家，国家高新技术企业446户，国省级专精特新“小巨人”229户，国省级重大创新平台266个，院士专家工作站85家。全市工业总产值、规上工业企业户数等指标长期位居四川省第2，正加快建设世界级重大装备制造基地，成渝地区双城经济圈制造强市和中国装备科技城。

人口

345.3万人

with a permanent population of 3.453 million

幅员面积

5911平方公里

covering an area of 5,911 km²

Deyang is an important node city of the Chengdu-Chongqing Economic Circle and a crucial functional section underpinning the high-quality development of the Chengdu Metropolitan Area, governing six districts (cities and counties), one national economic development zone and one national high-tech industrial development zone, and covering an area of 5,911 km², with a permanent population of 3.453 million. Currently, the City boasts 1,521 industrial enterprises above the designated scale, 441 national high-tech enterprises, 229 national and provincial “small giants” which are specialized, refined, characteristics and innovative, 266 national and provincial major innovation platforms, and 85 academician and expert workstations. The total industrial output value, the number of industrial enterprises above the designated scale and other indicators of the City rank No. 2 in Sichuan Province for a long term. It’s turning itself faster into a world-class major equipment manufacturing base, a strong manufacturing city of the Chengdu-Chongqing Economic Circle and the China’s equipment science and technology city.

此次发布的投资机会清单，梳理全市优势资源，聚焦德阳机械装备、材料化工、食品饮料、数字经济“3+1”主导产业，以及现代服务业、现代农业等领域，筛选51个推出项目，拟投资金额近1800亿元，期待与您携手寻找合作空间、共享发展机遇！

The list of investment opportunities released this time, by combing the City’s advantageous resources and focusing on its “3+1” leading industries (i.e. machinery and equipment, materials chemicals, food and beverage, digital economy) as well as modern service industry, modern agriculture and other fields, has screened 51 launched projects with a planned investment amount approaching CNY 180 billion. We look forward to working with you to explore cooperation space and share development opportunities!

CONCENT 目录

机械装备

MACHINERY AND EQUIPMENT

- 03 东方电气装备产业园项目
- 05 通航产业园项目
- 07 西部商用车生产基地项目
- 09 德阳·大学科技园项目
- 11 机器人、飞行装备智能制造产业园项目
- 12 临港装备制造产业园项目
- 13 通航装备制造项目
- 14 金泉钢铁厂房节能扩建项目

材料化工

MATERIAL CHEMICAL INDUSTRY

- 17 西部（德阳）光电材料产业园项目
- 18 晶硅光伏产业园项目
- 19 新型储能电池（动力电池）生产基地项目
- 20 新能源储能项目
- 21 无机非金属材料产业园项目
- 22 30万吨硅碳负极材料项目
- 23 高效光伏电池片生产项目
- 24 正极材料生产项目
- 25 化学药品原料药项目
- 26 锂电隔膜生产项目
- 27 5GWh半固态及固态电池项目
- 28 5万吨高精度电子铝箔生产项目
- 29 新型储能电芯及系统集成项目
- 30 一体化零碳智慧园区项目
- 31 高性能纤维复合新材料产业园项目
- 32 电池储能技术研发及设备制造产业园项目
- 33 3万吨电子铜箔项目
- 34 2000吨高效光伏导电银浆生产项目
- 35 电池精密结构件研发及生产基地项目
- 36 光伏坩埚项目

食品饮料

FOOD & BEVERAGE

- 38 中国火锅食材之都项目
- 39 食品产业园项目
- 40 绿色发展生物科技城项目
- 41 绿色食品产业功能区项目
- 42 现代食品产业园项目
- 43 调味品生产项目
- 44 火锅预制菜产研基地项目
- 45 生态酿酒项目

现代服务业

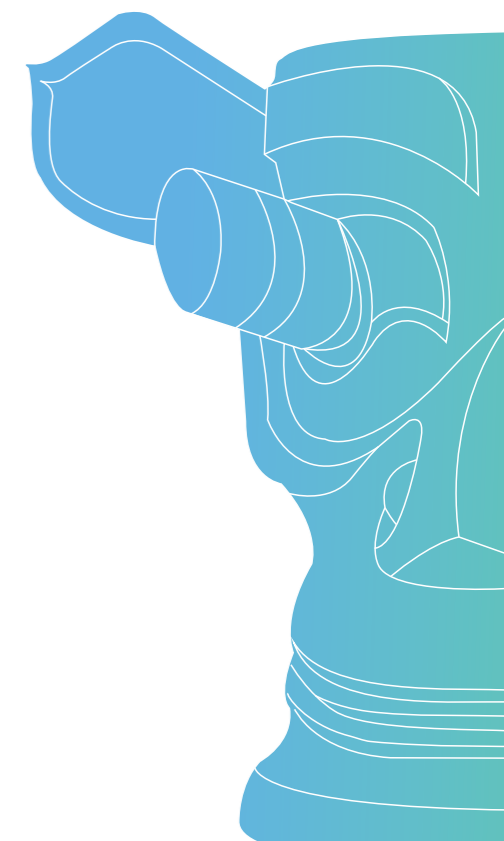

MODERN SERVICE INDUSTRY

- 56 绵远河现代生态渔业产业园项目
- 57 继光湖红色文化旅游区建设项目
- 59 子云湖（高端康养医美）项目
- 61 轻纺产业园项目
- 62 三国文化产业园项目
- 63 白马关户外运动基地建设项目
- 64 南街特色街区综合体项目
- 65 云湖国家级森林康养度假区项目
- 66 孝泉文化古镇旅游综合开发项目

数字经济

DIGITAL ECONOMY

- 48 数字经济产业园项目
- 49 科技创新产业园项目
- 50 中国（西部）传感谷项目
- 51 中江智能制造电子信息产业园项目
- 52 罗江智能制造（电子信息类）产业园项目
- 53 人工智能创新产业园项目

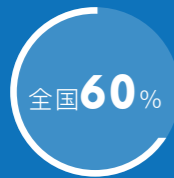

机械装备

MACHINERY AND EQUIPMENT

加快建设世界级重大装备制造基地

To accelerate the construction of a world-class major equipment manufacturing base

德阳是中国重大技术装备制造基地和全国三大动力设备制造基地之一，全国60%的核电产品、50%的轧钢设备和大型电站铸锻件、40%的水电机组、30%以上的火电机组和汽轮机、20%的大型船用铸锻件都由德阳制造，发电设备产量连续多年位居世界第一，15个能源装备产品市场占有率国内第一。

核电机组

60% of China's nuclear power plants

大型轧钢设备和大型电站铸锻件

50% of China's large-scale steel rolling equipment and large-scale power station castings and forgings

水电机组

40% of China's hydroelectric units

火电机组

30% of China's thermal power units

大型船用铸锻件

20% of China's large marine castings and forgings

15个能源装备产品

15 Energy Equipment Products

Deyang, as a China's major technical equipment manufacturing base and one of China's three major power equipment manufacturing bases, manufactures China's 60% of nuclear power products, 50% of steel rolling equipment and castings and forgings for large-scale power station, 40% of hydropower units, over 30% of thermal power units and steam turbines, and 20% of castings and forgings for large-scale ships. Besides, its output of power generation equipment has been ranking the first in the world for many years, and its market share of 15 energy equipment products also tops the whole country.

重点推动清洁能源装备“源网荷储”全产业链发展，巩固冶金装备、油气钻采优势产业领先地位，推动通用航空、轨道交通、农机装备、新能源汽车等高成长产业突破成势。

Deyang lays an emphasis on propelling the development of the whole industrial chain of clean energy equipment “ranging from source, grid, load to storage”, consolidates its leading position in advantageous industries such as metallurgical equipment and oil-gas drilling and production, and makes faster breakthroughs and expansion in high-growth industries including general aviation, rail transit, agricultural machinery and equipment, and new energy vehicles.

合作方式

独资、合资
Sole Proprietorship and Joint Venture

建设条件

项目承载地产业基础雄厚，初步形成了集极限设计、制造总装、系统集成和试验验证于一体的完整产业链、供应链体系，拥有东方电机、东方汽轮机、东方风电、东方锅炉、国机重装等链主企业，集聚了数千家专业化分工配套企业，培养了超万名成熟技术工人；配套需求可观，主机企业提供了较大规模的市场牵引和需求空间，龙头主机企业潜在配套空间数百亿，精密、复杂、高端零部件需求规模庞大。

The project, based on a strong industrial foundation in its carrying place, has initially formed a complete industrial chain and supply chain system integrating extreme design, manufacturing and assembly, system integration and test verification. It houses Dongfang Motor, Dongfang Steam Turbine, Dongfang Wind Power, Dongfang Boiler, National Machinery Heavy Equipment and other chain host enterprises, accumulates thousands of labor supporting enterprises with specialized division, has trained over 10,000 mature skilled workers. The supporting demand is considerable, and host enterprises provide a large-scale market traction and demand space. Leading host enterprises' potential supporting space amounts up to CNY tens of billions. The demand for precision, complex and high-end parts is huge.

建设内容

项目依托成德高端能源装备集群核心区，建设共性工艺服务中心、检验检测服务基地、机械制造工艺实验室以及全数字化协同供应链平台，到2025年，初步建成集工艺研发、加工制造、服务于一体的本地清洁能源装备产业配套体系。诚邀各类上下游配套企业入驻。

Relying on the core area of Chengdu-Deyang high-end energy equipment cluster, this project will build a common process service center, an inspection and testing service base, a machinery manufacturing process laboratory and a fully digital collaborative supply chain platform. By 2025, a local clean energy equipment industry supporting system integrating process R&D, processing and manufacturing and service will initially take shape. All kinds of upstream and downstream supporting enterprises are sincerely invited to settle in.

通航产业园项目 General Aviation Industrial Park Project

● 拟投资额

120亿元
CNY 12 billion

● 合作方式

独资、合作、其它
Sole Proprietorship, Cooperation and Others

● 建设条件

1. 什邡通用机场规划为A1类通用机场，飞行区等级为2B，占地面积880亩，跑道设计长度2800米，宽度30米。
2. 拥有成都都市圈唯一主要为产业制造服务的A1类通用机场；西南地区唯一的无人机适航审定联合研究中心；
3. 已聚集四川新航钛、爱思达、中航智、星际荣耀等通航企业。
4. 2023年通用机场获批立项，“什邡号”运载火箭发射升空；配套设施完善，资源要素齐备。

1. The Shifang General Airport is planned to be a Class A1 general airport, with a flight area class of 2B, and an airport area of 880 mu. The runway is designed to be 2,800 m in length and 30 m in width.
2. It has the only Class A1 general airport in Chengdu metropolitan area that mainly serves industrial manufacturing; and the only joint research center for UAV airworthiness certification in southwest China;
3. General aviation enterprise such as Sichuan XHT, ISTAR, ZHZ, ISPACE have gathered.
4. In 2023, the Shifang General Airport was approved; the “Shifang” Launch Vehicle took off; supporting facilities are improved, and resource elements are available.

● 建设内容

建设以航空零部件制造、无人机生产及商业航天、卫星制造、低空经济为主导的通用航空产业，打造国内领先的航空零部件制造创新示范区和西南地区以无人机为主导的通用航空全产业链智造集聚区，建设全省一流的通用航空综合服务基地。

Build a general aviation industry dominated by aviation parts manufacturing, UAV production, commercial aerospace, satellite manufacturing and low-altitude economy, create a leading domestic aviation parts manufacturing innovation demonstration zone and a UAV-led general aviation industry chain intelligent manufacturing agglomeration area in southwest China, and construct a first-class general aviation comprehensive service base in the province.

西部商用车生产基地项目 Western Commercial Vehicle Production Base Project

拟投资额

50亿元
CNY 5 billion

合作方式

独资、合资
Sole proprietorship, joint venture

建设条件

德阳高新区地跨成绵高速、成都市六环路两侧，与成都市青白江城区无缝连接，距蓉欧快铁始发站仅3公里。一汽解放商用车广汉基地项目落户德阳高新区，将建成具备10万辆生产能力的一汽解放品牌中、高端商用车生产基地，带动数十家一汽解放配套企业聚集，拉动周边汽车零部件及相关配套服务发展。

The Deyang High-tech Zone stretches over both sides of the Chengdu-Mianyang Expressway and Chengdu Sixth Ring Road, and seamlessly connects with downtown Qingbaijiang of Chengdu, only 3 km from the starting station of the Chengdu-Europe Express Railway. The FAW Jiefang Commercial Vehicle Guanghan Base Project has settled in the Deyang High-tech Zone. A production base for FAW Jiefang brand medium and high-end commercial vehicles with a production capacity of 100,000 units will be built, driving the agglomeration of dozens of FAW Jiefang supporting enterprises, and the development of the neighboring auto parts and related supporting services.

建设内容

项目占地面积约2000亩，围绕产业链成群，规划建设商用车及零配件产业园、商用车产业发展联盟，大力扶持汽车零部件生产、车辆改装、汽车检测等配套产业。依托冠宇动力及储能电池项目，加快发展动力电池、驱动电机、电控系统等关键零部件产业，加快构建以商用车为主、新能源专用车以及乘用车制造为辅的汽车产业集群。

This project, covering an area of about 2000 mu and forming chains and clusters around the industries, is planned to construct commercial vehicles and spare parts industrial park and commercial vehicle industry development alliance so as to vigorously supports auto parts production, vehicle modification, automobile testing and other supporting industries. By taking advantages of the Guanyu Power and Energy Storage Battery Project, steps are quickened to develop key parts and components industries such as power battery, drive motor and electronic control system, and construct the automobile industry cluster dominated by commercial vehicles and supplemented by new energy special vehicles and passenger cars.

● 拟投资额

30亿元
CNY 3 billion

● 合作方式

独资、合资、合作
Sole Proprietorship, Joint
Venture and Cooperation

● 建设条件

项目交通区位优势：位于德阳市城南门户，拥有庐山路、金沙江路、南湖路等多条城市干道，并连通G5扩容线和成绵高速，处于成都1小时交通圈内；产业优势明显：德阳是成德绵创新走廊腹地，众多科技型企业在此集聚，德阳经开区装备制造产业基础雄厚，技术密集型企业密度高。

Superior transportation location: This project is located in the southern gateway of Deyang City, accessible by Lushan Road, Jinshajiang Road, Nanhu Road and other urban arteries, and connected to the G5 Expansion Line and Chengdu-Mianyang Expressway, within the Chengdu 1-hour Transportation Circle; Obvious industrial advantages: Deyang is the hinterland of the Chengdu-Deyang-Mianyang Innovation Corridor, gathering many science and technology-based enterprises. The Deyang Economic Development Zone has a strong foundation of equipment manufacturing industry and high density of technology-intensive enterprises.

● 建设内容

项目为“中国装备科技城”的核心载体，总体规划面积3.1平方公里，其中核心启动区1平方公里正在加紧建设中，主要聚焦机械装备、材料化工、食品饮料和数字经济“3+1”主导产业，布局中试孵化基地、检验检测中心、大学科研基地、科技成果转化中心等，着力引进一批拥有世界引领性技术、国家战略性技术、关键核心技术的高校院所和人才团队入驻。

This project is the core carrier of “China Equipment Science and Technology City”, with a total planned area of 3.1 km². The 1km² core start-up area, under accelerated construction, mainly focuses on the “3 +1” leading industries (machinery and equipment, materials chemicals, food and beverage and digital economy) and places the pilot incubation bases, testing and inspection centers, university scientific research bases, scientific and technological achievements transformation centers and so on. Efforts will be made to introduce a number of universities, institutes and talent teams with world-leading technologies, national strategic technologies and key core technologies.

机器人、飞行装备智能制造产业园项目 Robot and Flight Equipment Intelligent Manufacturing Industrial Park Project

拟投资额

30亿元
CNY 3 billion

合作方式

独资、合资
Sole Proprietorship and Joint Venture

建设条件

- 1.区位优势明显，地处成都半小时经济圈，已纳入成德眉资同城化综合试验区。
- 2.德阳市制造业产业基础雄厚，企业数字化、智能化转型需求较高，应用前景广阔。
- 3.机器人智能制造产业已初具规模，引进了重庆大学智能机器人研究院、福莫斯技术、潇龙激光等多个项目。数字经济产业方面，签约武汉特斯联等，拥有国内前列的人工智能算力，为发展机器人产业夯实技术配套基础。

1. This project is located in the Chengdu Half-hour Economic Circle and has been included in the Chengdu-Deyang-Meishan-Ziyang Integrated Pilot Urbanization Area, enjoying obvious location advantages.
2. Deyang City boasts a strong foundation of manufacturing industry, high demand for enterprise digitalization and intelligent transformation, and broad application prospects.
3. The robotics intelligent manufacturing industry has taken shape; Chongqing Robotics Institute, Famous Technology, Xiaolong Laser and other projects have been introduced. In terms of the digital economy industry, Wuhan Termunus has been signed; the domestic leading artificial intelligence arithmetic power owned by this project will lay a solid technical supporting foundation for the development of robotics industry.

建设内容

项目规划占地面积约500亩，拟引进机器人、低空经济、无人机、智能制造龙头企业及配套企业，发展壮大机器人研发测试、生产制造、综合运用等领域，着力打造无人机、飞行装备应用基地和低空经济产业园。项目建设周期3年。

This project, occupying an area of about 500 mu and with a construction cycle of 3 years, is proposed to introduce robotics, low-altitude economy, UAV, intelligent manufacturing leading enterprises and supporting enterprises, develop and expand robotics R&D and testing, production and manufacturing, comprehensive application and other fields, and strives to build an application base for UAV and flight equipment and a low-altitude economy industrial park.

临港装备制造产业园项目 Port Equipment Manufacturing Industrial Park Project

拟投资额

13亿元
CNY 1.3 billion

合作方式

合资、合作
Joint venture and cooperation

建设条件

项目区位优势，位于德阳经开区北区，距离成都经济区环线高速出口、成绵高速出口约2公里；毗邻年运能1000万吨的国家二级铁路物流基地黄许镇站、德阳保税物流中心（B型），配套铁路专用线，常态化开行中欧、中亚、南向国际班列，物流便捷；厂房条件成熟，在建厂房约10万平（2024年底竣工），剩余空间可定制。

The project enjoys superior location as it stands in the north part of the Deyang Economic Development Zone, about 2 km away from the Exit of Chengdu Economic Zone Loop Expressway and Chengdu-Mianyang Expressway; it is adjacent to Huangxu Town Station, a national second-class railroad logistics base with an annual capacity of 10 million tons, and Deyang Bonded Logistics Center (Type B); it is equipped with special railway lines, which normally operates China Railway Express, Central Asia Railway and southbound international Railway, enjoying convenient logistics; factory conditions are mature as about 100,000 m² of factory buildings are under construction (completed by the end of 2024) and the remaining space can be customized.

建设内容

项目总占地约350亩，主要建设多层厂房、单层厂房、中试大楼、单层仓库、多层仓库、配套用房及配套基础设施等，拟招商的产业类型为高端清洁能源装备、航空与燃机装备、工业机器人等先进制造产业，拟打造集工艺研发、加工制造、展示、供应链服务等功能于一体的高端制造产业集群，吸引各类上下游配套企业入驻。

This project, covering a total area of about 350 mu, mainly constructs multi-storey plant, single-storey plant, pilot building, single-storey warehouses, multi-storey warehouses, ancillary buildings and supporting infrastructure. The industries to be attracted are high-end clean energy equipment, aviation and combustion engine equipment, industrial robots and other advanced manufacturing industries. It is planned to create a high-end manufacturing industry cluster integrating process research and development, processing and manufacturing, display, supply chain services and other functions, and to attract various types of upstream and downstream supporting enterprises.

金泉钢铁厂房节能扩建项目 Jinquan Steel Plant Energy-Saving Expansion Project

拟投资额

5亿元
CNY 500 million

合作方式

独资、合资、合作
Sole Proprietorship, Joint Venture
and Cooperation

建设条件

便利的交通条件（成万高速、成都经济区环线高速、德茂路、乡道）；适宜的气候状况；丰富的劳动资源；玉泉以泉得名，境内泉眼众多，淡水资源丰富。

Convenient transportation conditions (Chengdu-Wanyuan Expressway, Chengdu Economic Zone Loop Expressway, Demao Road, and Country Road); suitable climatic conditions; abundant labor resources; Yuquan, named after the springs, has abundant freshwater resources from many springs within the territory.

建设内容

宗地面积：43766平方米；房屋建筑面积16641平方米；拟扩建厂房并对厂房的屋顶和墙体进行保温和隔热改造，减少热量损失，提高能源利用效率。安装能源管理设备，实时监控能源使用情况，及时发现和解决能源浪费问题。对部分能效低下的设备进行更新和升级，采用更先进的节能技术和设备，降低生产过程中的能耗。

Land area: 43,766 m²; building area: 16,641 m²; It is proposed to expand the plant buildings and renovate the roof and walls of the plant buildings for heat preservation and insulation to reduce heat loss and improve the energy utilization efficiency. In addition, energy management equipment will be installed to monitor energy use in real time and to identify and solve energy waste problems in a timely manner. Some of the equipment with low energy efficiency will be upgraded with more advanced energy-saving technology and equipment to reduce energy consumption in the production process.

材料化工

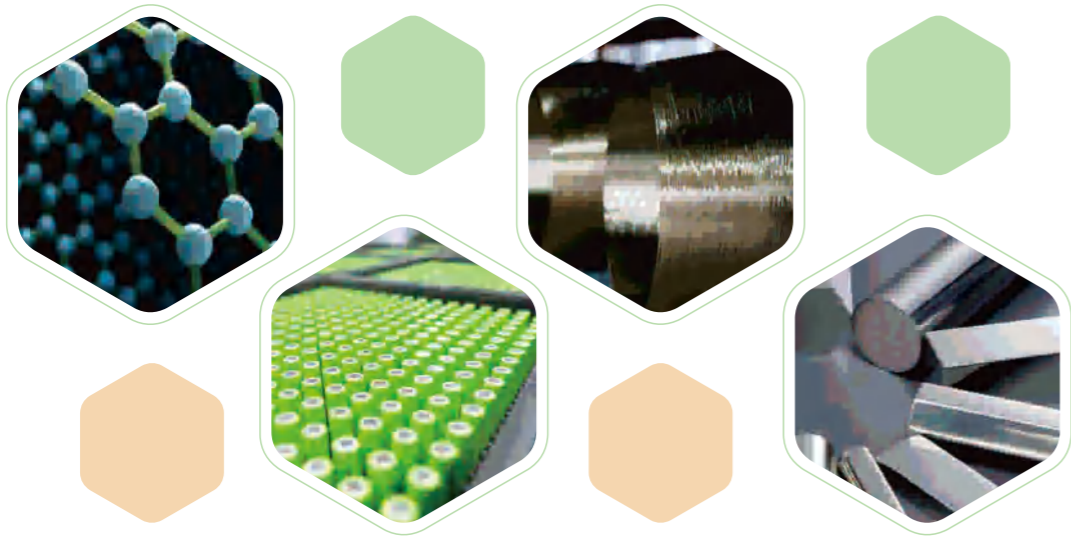

MATERIAL CHEMICAL INDUSTRY

加快建设世界级重大装备制造基地

To accelerate the construction of a world-class major equipment manufacturing base

中型压力容器材料、超超临界汽轮机用高中压转子材料，长寿命高温材料等金属材料处于国内先进水平，正面银浆材料成功突破关键核心技术“卡脖子”问题，拥有世界首套万吨级池窑连续玄武岩纤维知识产权。钛白粉单体产能亚洲第一，工业磷铵产能世界第一。

Medium-sized pressure vessel materials, high and medium pressure rotor materials for ultra-supercritical steam turbines, long-life high-temperature materials and other metal materials are at the domestic advanced level. The problems of the key core technologies related to the positive silver paste materials have been successfully solved. Deyang boasts the world's first set of 10,000-ton pool kiln continuous basalt fiber intellectual property rights. The city's production capacity of titanium dioxide monomer ranks the first in Asia, and its production capacity of industrial ammonium phosphate also tops the world.

重点发展新型能源材料、新型化工材料、先进金属材料、绿色建筑材料等先进基础材料，壮大高性能纤维、电子新材料等关键战略材料，培育石墨烯材料、3D打印材料、未来材料等前沿新材料。

The emphasis is placed on the development of new energy materials, new chemical industry materials, advanced metal materials, green building materials and other advanced basic materials, expanding high-performance fibers, new electronic materials and other key strategic materials, and fostering cutting-edge new materials, such as graphene materials, 3D printing materials and future materials.

西部（德阳）光电材料产业园项目 Western (Deyang) Photoelectric Materials Industrial Park Project

拟投资额 74亿元 CNY 7.4 billion **合作方式** 合资、合作、其它 Joint Venture, Cooperation and Others

建设条件 区位优势优越，交通便利，地处成德绵1小时经济圈核心地带，距中欧班列物流港约10公里，距双流国际机场1.5小时车程，距绵阳机场仅30分钟车程，基础设施条件完善，产业园内虹基光玻新材料等项目已建成投产，可与周边的京东方、惠科等相关企业共同打造成渝光电显示材料集群。

The project is situated at the core of Chengdu-Deyang-Mianyang 1-hour Economic Circle, about 10 km from the China Railway Express Logistics Port, 1.5 hours' drive from the Chengdu Shuangliu International Airport, and only 30 minutes' drive from the Mianyang Airport, enjoying favorable geographical conditions, convenient transport, and complete infrastructure conditions. Hongji Optical Glass New Material and other projects in the park have been put into production. It can be jointly developed into a Chengdu-Chongqing optoelectronic display material cluster with the neighboring BOE, HKC and other related enterprises.

建设内容 项目规划占地面积800亩，新建厂房、办公场所及相关配套设施，重点聚焦光电材料产业集群成链，实现规模化发展，打造西部地区乃至全国有影响力的光电材料产业基地。

This project, which covers an area of 800 mu and has built new plants, offices and related facilities, focuses on transforming optoelectronic materials industry clusters into a chain for large-scale development and creating an influential optoelectronic materials industry base in the western region and the whole country.

晶硅光伏产业园项目 Crystalline Silicon Photovoltaic Industrial Park Project

拟投资额 100亿元 CNY 10 billion **合作方式** 独资、合作、其它 Sole Proprietorship, Cooperation and Others

建设条件 1.距离德阳物流港20公里、成都主城区50公里、距离西南地区最大的国际物流港—青白江国际物流港不到30公里，拥有直通俄罗斯以及欧洲各国的国际班列，大大缩短产成品的运输距离，节约运输成本，提高产出效能，增加利润收入；能有力保障该项目原材料和产成品的进出口；现有水、电等基础设施完备。
2.已签约落地天合光能年产38GW单晶拉棒及配套项目、博海新能源年产20GW高效太阳能电池片生产项目、年产40GW光伏坩埚等项目。

1. 20 km from the Deyang Logistics Port, 50 km from downtown Chengdu, and less than 30 km from the Qingbaijiang International Logistics Port, the largest international logistics port in Southwest China, this project possesses the international railway direct to Russia and European countries, which greatly shortens the transportation distance of finished products, saves the transportation cost, improves the output efficiency and increases the profit income; strong guarantee can be given to the import and export of raw materials and finished products of this project; Existing water, electricity and other infrastructures are complete.
2. Trinasolar 38GW/Year Monocrystalline Bar and Supporting Projects, Bohai New Energy 20GW/Year High-efficiency Solar Cell Production Project and 40GW/Year Photovoltaic Crucibles and other projects have been signed and landed.

建设内容 项目占地面积约500亩，规划建设集太阳能单晶拉棒、切片、电池片、组件等主产业链及光伏银浆、光伏玻璃、光伏背板、逆变器、接线盒、胶膜、金刚线等辅产业链生产基地。

This project, with an area of about 500 mu, is planned to build a production base for the main industrial chain of solar monocrystalline bars, slices, cells and modules, as well as the auxiliary industrial chain of photovoltaic silver paste, photovoltaic glass, photovoltaic backsheets, inverters, junction boxes, adhesive film and diamond wires.

新型储能电池（动力电池）生产基地项目 New Energy Storage Battery (Power Battery) Production Base Project

拟投资额

100亿元
CNY 10 billion

合作方式

独资、合作、其它
Sole Proprietorship, Cooperation
and Others

建设条件

- 1.距成都主城区50公里，境内涵盖“四高五轨六快一中心”交通体系及什邡通用机场。
- 2.拥有华兴宇、宏达集团、川恒化工等配套企业，以及投资百亿元的欣旺达项目，建设25GWh动力电池及储能电池电芯、模组、PACK、电池系统等，已于2023年投产。
- 3.园区配套设施完善，资源要素齐备。什邡金河磷矿是四川省最大的磷矿石生产基地、全国六大化学矿山之一、化学矿山重点企业。

1. 50 km from the downtown Chengdu, its territory covers a traffic system of “four expressways, five rail traffic, six fast routes and one center” and the Shifang General Airport.

2. This project houses Huason, Hongda Group, Chanhen Chemical and other supporting enterprises, and Sunwoda Project with an investment of CNY 10 billion. 25GWh power battery and energy storage battery cells, modules, PACKs, battery systems, etc., are constructed and have been put into production in 2023.

3. The Park has perfect supporting facilities and complete resource elements. Shifang Jinhe Phosphorus Mine is the largest phosphate ore production base in Sichuan Province, one of the six largest chemical mines in China, and a key enterprise of chemical mines.

建设内容

项目占地面积约800亩，规划建设20GWh新型储能电池（动力电池）产业园，打造集电芯、正极材料、隔膜、精密结构件、铜箔、集流体等研发、生产、制造、销售于一体，具备自主创新能力、规模化发展、产业配套齐全的新材料产业园。

The project, with an area of about 800 mu, plans to build a 20GWh New Energy Storage Battery (Power Battery) Industrial Park to create a new material industrial park integrating the research and development, production, manufacturing and sales of battery cells, cathode materials, diaphragms, precision structural parts, copper foils, and collectors, etc., and possessing the capability of independent innovation, large-scale development, and complete industrial supporting facilities.

新能源储能项目 New Energy Storage Project

拟投资额

50亿元
CNY 5 billion

合作方式

独资、合资、合作、其它
Sole Proprietorship, Joint Venture,
Cooperation and Others

建设条件

项目位于绵竹市高新技术产业园，该园区为省级高新技术产业园区，规划总面积38.07平方公里，是四川省科技创新工作先进园区。园区坐落在川青铁路、成绵高速复线及绵茂公路的交汇区域，距成万高速路口3公里，交通便利。周边水、电、燃气、能源均得到有效保障，周围区域交通运输便利，建设环境良好，市政配套设施齐全。

This project is located in the Mianzhu High-tech Industrial Park, which is a provincial-level high-tech industrial park with a total planning area of 38.07 km², and is an advanced park for scientific and technological innovation in Sichuan Province. This park is located in the intersection area of Sichuan-Qinghai Railway, double-track Chengdu-Mianyang Expressway and Mianzhu-Maoxian Highway, 3 km away from the Chengdu-Wanyuan Expressway intersection, with convenient transportation. The surrounding water, electricity, gas and energy are effectively guaranteed. The surrounding area has convenient transportation, good construction environment and complete municipal supporting facilities.

建设内容

项目占地约300亩，主要建设新能源储能项目，规划建设生产车间、研发中心及西部总部。结合绵竹市现有电池级基础锂盐，锂电、钠电正极材料，光伏导电银浆等关联配套项目，产业配套设施齐全，着力打造新能源储能项目全产业链。

This project, with an area of about 300 mu, mainly constructs a new energy storage project and plans to construct production workshop, R&D center and western headquarters. In combination with the existing battery-grade basic lithium salt, lithium and sodium cathode materials, photovoltaic conductive silver pastes and other related supporting projects in Mianzhu City, this project owns complete industrial supporting facilities, and focuses on creating a new energy storage project whole industry chain.

无机非金属材料产业园项目 Inorganic Nonmetallic Materials Industrial Park Project

拟投资额

50亿元
CNY 5 billion

合作方式

合资、合作、其它
Joint Venture, Cooperation and Others

建设条件

区位优势优越，地处成德绵1小时经济圈核心地带，距中欧班列物流港约10公里，距双流国际机场1.5小时车程，距绵阳机场仅30分钟车程，产业基础雄厚，拥有龙头企业四川省玻纤集团，已建成投产世界首套万吨级连续玄武岩纤维池窑拉丝生产线。

This project is superiorly located in the core of Chengdu-Deyang-Mianyang 1-hour Economic Circle, about 10 km from the China Railway Express Logistics Port, 1.5 hours' drive from the Chengdu Shuangliu International Airport, and only 30 minutes' drive from the Mianyang Airport. Enjoying a powerful industrial foundation, this project owns the leading enterprise Sichuan Glass Fiber Group. The world's first set of 10,000-ton continuous basalt fiber pool kiln drawing production line has been put into production.

建设内容

项目规划占地面积500亩，建设周期预计12个月，将新建生产车间、办公场所及相关配套设施，重点发展玻璃纤维、碳纤维、电子陶瓷、无机涂层等相关的先进材料。依托现有的高性能纤维材料优势，引进汽车家电领域复合材料、高端绝缘材料等下游企业和项目，实现该产业的延链强链。

The project, with a planned area of 500 mu and an expected construction period of 12 months, will build new production workshops, offices and related facilities and focus on the development of glass fibers, carbon fibers, electronic ceramics, inorganic coatings and other related advanced materials. Relying on the existing advantages of high-performance fiber materials, composite materials in the field of automobile and home appliances, high-end insulation materials and other downstream enterprises and projects are introduced to achieve a long and strong chain of the industry.

化学药品原料药项目 Chemical Bulk Drug Project

拟投资额

30亿元
CNY 3 billion

合作方式

独资、合资、合作、其它
Sole Proprietorship, Joint Venture, Cooperation and Others

建设条件

项目位于绵竹新市化工园区，该园区是2022年6月认定的省级化工园区，化工产业基础深厚、产业配套完善。园区不仅毗邻成万高速、成都都市圈环线2条高速，同时还有川青铁路，拥有内、外便捷的交通网络。园区科技创新能力较好，多家企业已分别与清华大学、四川大学等多所高校院所合作，双方通过投资共建研发机构、人才资源共享、联合攻关、委托研究等多种形式开展“产学研用”合作，为化工行业培养一大批高级管理人才和技术人才。

This Project is located in the Mianzhu Xinshi Chemical Park, which is recognized as a provincial-level chemical park in June 2022, with a deep foundation of chemical industry and perfect industrial support. This Park is adjacent to the Chengdu-Wanyuan Expressway and Chengdu Metropolitan Circle Loop Expressway as well as the Sichuan-Qinghai Railway, forming a convenient internal and external transportation network. The Park is highly capable of scientific and technological innovation. Many enterprises have cooperated with Tsinghua University, Sichuan University and other universities and institutes. The both sides have carried out “industry-university-research-utilization” cooperation in various forms, such as investment in the co-construction of R&D institutions, sharing of human resources, joint research and commissioned research, etc., cultivating a large number of senior management and technical talents for the chemical industry.

建设内容

项目占地200亩，主要建设化学药品原料药生产项目，规划建设生产车间、质检楼、研发楼等。

This project, covering an area of 200 mu, mainly constructs chemical bulk drug production project and plans to build production workshop, quality inspection building, R&D building and so on.

高性能纤维复合新材料产业园项目 High-performance Fiber Composite New Material Industrial Park Project

● 拟投资额	30亿元 CNY 3 billion	● 合作方式	独资、合资、合作 Sole Proprietorship, Joint Venture and Cooperation
--------	-----------------------	--------	--

● 建设条件
区位优势优越，地处成德绵1小时经济圈核心地带，距中欧班列物流港约10公里，距双流国际机场1.5小时车程，距绵阳机场仅30分钟车程，产业基础雄厚，拥有龙头企业四川省玻纤集团，建成投产世界首套万吨级连续玄武岩纤维池窑拉丝生产线。

This project is superiorly located at the core of the Chengdu-Deyang-Mianyang 1-hour Economic Circle, about 10 km from the China Railway Express Logistics Port, 1.5 hours' drive from the Chengdu Shuangliu International Airport, and only 30 minutes' drive from the Mianyang Airport. Enjoying a powerful industrial foundation, this project owns the leading enterprise Sichuan Fiberglass Group. The world's first set of 10,000-ton continuous basalt fiber pool kiln drawing production line has been put into production.

● 建设内容
项目选址罗江区金山工业园，规划面积300亩，新建厂房、办公场所及相关配套设施，拟依托玄武岩纤维生产技术优势，围绕以玄武岩纤维产业化为代表的新材料产业布局，重点聚焦玄武岩纤维研发和应用，大力引进上游原材料和下游应用端企业，包括风电装备、输配电装备等项目，实现产业集群发展。

This project, seated at the Jinshan Industrial Park of Luojiang District, with a planned area of 300 mu, has built new plants, offices and related facilities. It is planned to capitalize basalt fiber production technological advantages and center on the new materials industry layout represented by basalt fiber industrialization to realize industrial cluster development by bringing in upstream raw materials and downstream application enterprises, including wind power equipment, power transmission and distribution equipment and other projects with a focus on basalt fiber research and development and application.

电池储能技术研发及设备制造产业园项目 Battery Energy Storage Technology R&D and Equipment Manufacturing Industrial Park Project

● 拟投资额	30亿元 CNY 3 billion	● 合作方式	合资、合作、其它 Joint Venture, Cooperation and Others
--------	-----------------------	--------	---

● 建设条件
德阳市电化学储能装备基础和配套能力较好，重点发展以锂电材料为主的先进材料产业，罗江区正着力打造先进材料产业功能区，规划面积8.2平方公里，已建成3平方公里，入驻企业100家。该项目可与罗江先进纳米硅、硅碳负极研发和实验室项目及锂电池储能研发领域等实现资源共享，进一步促进新材料产业链和电池储能技术发展。

Deyang City, by exploiting its good electrochemical energy storage equipment base and supporting capacity, mainly develops advanced materials industry dominated by lithium materials. Luojiang District spares no effort to forge advanced materials industry functional zone. 3 km² out of the 8.2 km² planned area has been built, and 100 companies have settled. This project can share resources with Luojiang's advanced nano-silicon and silicon carbon cathode R&D and laboratory projects and lithium battery energy storage R&D field, etc., to further boost development of new material industry chain and battery energy storage technology.

● 建设内容
该项目计划占地300亩，建设周期预计12个月，将建设全钒液流电池储能系统、铁铬液流电池储能技术研发等电池储能项目及储能设备制造产业园，在储能、综合智慧能源、零碳供能等新领域实现突破，形成电解液、新型电极材料、双极板、电锥等产品研发生产的全产业布局。

This project, with a planned area of 300 mu and an expected construction period cycle of 12 months, will build all-vanadium flow battery energy storage system, iron-chromium flow battery energy storage technology research and development and other battery energy storage projects and energy storage equipment manufacturing industrial park. Breakthroughs will be made in new fields such as energy storage, integrated intelligent energy and zero-carbon energy supply, and a full industrial layout for the research and development and production of electrolyte, new electrode materials, bipolar plates, electric cones and other products will take shape.

年产3万吨电子铜箔项目 30,000t/Year Electronic Copper Foil Project

拟投资额

30亿元
CNY 3 billion

合作方式

独资、合作、其它
Sole Proprietorship, Cooperation
and Others

建设条件

1. 距离成都主城区50公里，境内涵盖“四高五轨六快一中心”交通体系及什邡通用机场，20分钟可达德阳、30分钟达成都、1小时达天府国际机场和双流国际机场。
2. 产业基础雄厚，拥有华兴宇、裕丰、康普瑞、宏达集团、川恒化工等配套企业，以及投资百亿元的欣旺达动力电池和储能产业生产基地项目，建设25GWh动力电池及储能电池电芯、模组、PACK、电池系统等，已于2023年建成投产。
3. 园区配套设施完善，资源要素齐备，水电气等要素保障完备。什邡市金河磷矿是四川省最大的磷矿石生产基地、全国六大化学矿山之一、化学矿山重点企业。

1. 50km from the downtown Chengdu, its territory covers a traffic system of “four expressways, five rail traffic, six fast routes and one center” and the Shifang General Airport. It only takes 20 minutes to reach Deyang, 30 minutes to reach Chengdu, and 1 hour to reach the Chengdu Tianfu International Airport and the Chengdu Shuangliu International Airport.

2. Relying on powerful industrial Foundation, this project houses Huason, Yufeng, KPRUI, Hongda Group, Chanhen Chemical and other supporting enterprises, as well as Sunwoda Power Battery and Energy Storage Industrial Production with an investment of CNY 10 billion. 25GWh power battery and energy storage battery cells, modules, PACKs, battery systems, etc. are constructed and have been put into production in 2023.

3. The Park has perfect supporting facilities and complete resource elements. Water, electricity, gas and other element guarantee are complete. Shifang Jinhe Phosphorus Mine is the largest phosphate ore production base in Sichuan Province, one of the six largest chemical mines in China, and a key enterprise of chemical mines.

食品饮料

FOOD & BEVERAGE

打造中国美酒名城、中国烟草（雪茄）之都

To build a China's Famous Baijiu City and the China's Capital of Tobacco (Cigars)

拥有剑南春、蓝剑饮品、中江挂面、长城雪茄、唯怡豆奶、冰川时代等知名品牌。区域白酒年产量超20万吨，成为川酒文化起源地和四大主产区之一。拥有全国唯一的长城雪茄厂，是亚洲最大的雪茄生产基地，占有国产雪茄70%市场份额。

重点发展白酒、烟草2个优势产业，聚焦粮油加工、绿色饮料、火锅配料、预制菜、休闲食品等细分领域。

Well-known brands such as JianNanChun, Blue Sword, Zhongjiang Fine Dried Noodles, Great Wall Cigars, Vieve Soybean Milk, and Bingchuan Shidai have settled in Deyang. With a regional baijiu annual output of more than 200,000 tons, it has become the origin and one of the four main producing areas of Sichuan liquor culture. Besides, Deyang has the only Great Wall Cigar factory in China, and is the largest cigar production base in Asia, accounting for 70% of the domestic cigar market share.

Focusing on the development of two advantageous industries of baijiu and tobacco, Deyang focuses on grain and oil processing, green beverages, hotpot ingredients, prepared dishes, snack foods and other subdivisions.

中国火锅食材之都项目 China Hotpot Ingredients Capital Project

拟投资额

50亿元
CNY 5 billion

合作方式

独资、合资
Sole Proprietorship and Joint Venture

建设条件

广汉是西南地区最大的食用油加工生产基地。现已形成在火锅油脂、火锅香辛料、火锅蘸料、火锅底料、火锅预制菜等领域相对完备的产业链。其中，龙头企业翠宏食品、仟味食品、迈德乐食品、航佳生物科技均位列行业前五。广汉已与中国烹饪协会签署了共促火锅食材产业发展战略协议，聘请12家龙头企业作为招商大使，共同促进广汉火锅产业高质量发展。同时，与四川大学、江南大学、华南理工、西华大学、四川发酵院等高校院所开展产学研合作，共建火锅食材技术研发中心。

As the largest edible oil processing and production base in southwest China, Guanghan has formed a relatively complete industrial chain in the fields of hotpot oil, hotpot spices, hotpot dipping sauces, hotpot bases, and hotpot prepared dishes. Among them, the leading enterprises Cuihong Food, Kingwell Food, Maidele Food, and Hangjia Biotechnology are among the top five in the industry. In addition, Guanghan has signed a strategic agreement with the China Cuisine Association to jointly promote the development of the hotpot ingredient industry, and hired 12 leading enterprises as investment promotion ambassadors to jointly promote the high-quality development of the hotpot industry in Guanghan. Meanwhile, it has carried out industry-university-research cooperation with Sichuan University, Jiangnan University, South China University of Technology, Xihua University, Sichuan Food Fermentation Industry Research and Design Institute and other universities and institutes to jointly build a Hotpot Ingredient Technology R&D Centre.

建设内容

重点打造“中国火锅食材之都”，推动传统优势产业转型升级，形成火锅食材产业集群，创建“中国火锅第一城”城市IP，到2027年，建成全国最大的火锅食材聚集发展区。

Guanghan focuses on building the “China Hotpot Ingredients Capital”, promoting the transformation and upgrading of traditional advantageous industries, forming a hotpot ingredients industry cluster, creating the city IP of “China's First Hotpot City”, and building the largest hotpot ingredients gathering and development area in China by 2027.

建设条件

项目位于绵竹市高新技术产业园，周边水、电、燃气、能源均得到有效保障，周围区域交通便利，市政配套设施齐全。项目以现有的四川美大康华康药业、四川华光普泰等公司为核心，以及已进入研发中试阶段的成都金瑞基业生物科技有限公司，为企业提供药品开发、扩能生产的场地和技术服务，助推生物医药产业的发展壮大。

The project is located in the Mianzhu High-tech Industrial Park, with water, electricity, gas and energy in the surrounding areas being effectively guaranteed, convenient transportation and complete municipal supporting facilities. With the existing Sichuan Meidakang Huakang Pharmaceutical Co., Ltd., Sichuan Huaguang Putai and other companies as the core, as well as Chengdu Jinrui Foundation Biotechnology Co., Ltd., which has entered the R&D pilot stage, the project provides enterprises sites and technical services for drug development, capacity expansion and production to boost the development and growth of the biomedical industry.

建设内容

项目占地约132亩，主要建设GMP标准洁净厂房约70000m²、生物医药专用灭菌厂房约6000m²、新建生物医药研发实验室约8000m²、医药专用储存仓库约8000m²、园区污水管网6Km及相应的园区基础配套设施。厂房可按照企业实际需求为药品研发生产和生物提取功能的企业提供。

Covering an area of about 132 mu, the project mainly builds about 70,000 m² of GMP standard clean plants, about 6,000 m² of special biomedical sterilization plants, about 8,000 m² of new biomedical R&D laboratories, about 8,000 m² of special medicine storage warehouses, 6Km of sewage pipe network and corresponding basic supporting facilities in the Park. The plant can be provided for enterprises with drug R&D, production and biological extraction functions according to the actual needs of enterprises.

项目位于名酒企业剑南春的故乡，距成都59公里、德阳33公里、绵阳26公里，属于成都一小时经济圈，绵阳、德阳半小时经济圈，区位优势突出；拥有成万高速、成都都市圈环线2条高速，以及川青铁路线，交通运输便利；同时绵竹市处于“神秘的北纬30度”酿酒黄金段和四川酿酒U形带，拥有得天独厚的酿酒生态环境，地理环境优美，境内现已有以剑南春为代表的多家优质酿酒企业，拥有较好的产业基础。

The project has distinct location advantages. It is located in the hometown of JianNanChun, a famous baijiu enterprise, 59 km away from Chengdu, 33 km away from Deyang, and 26 km away from Mianyang, and also belongs to the Chengdu's One-hour Economic Circle and Mianyang and Deyang's Half-hour Economic Circle. With 2 expressways, i.e. the Chengdu-Wanyuan Expressway and Chengdu Metropolitan Circle Loop Expressway, as well as the Sichuan-Qinghai Railway, the transport is convenient. Meanwhile, located in the "mysterious 30 degrees north latitude" brewing golden section and Sichuan brewing U-shaped belt, Mianzhu City has a unique brewing ecological environment and superior geographical environment. There are a number of high-quality brewing enterprises represented by JianNanChun in the territory, showing a good industrial foundation.

建设内容

项目地块面积约167亩，计划围绕打造“世界美酒特色产区”“中国美酒名城”的重要承载点，招引大型生态酿酒项目，共同打造千亿级白酒产业。

With the project plot area of about 167 mu, Mianzhu plans to focus on building an important bearing point of "World Baijiu Characteristic Production Area" and "China's Famous Baijiu City", to attract large-scale ecological brewing projects, and jointly build a 100-billion-level baijiu industry.

数字经济

DIGITAL ECONOMY

打造国家数字经济发展试验区（四川）先行区 “5G+工业互联网”融合发展先导区

To build a Pilot Area of National Digital Economy Development Pilot Zone (Sichuan) and a Pilot Zone of “5G+Industrial Internet” Integrated Development

德阳已形成电子元器件、大数据、云计算、人工智能、电子商务、工业互联网等业态并举的多元数字产业格局，产业规模超千亿元。连续三年入选赛迪数字经济发展百强城市，天府数字经济指数和四川省数字经济综合发展水平评估位列四川省前三。

重点发展电子元器件、配套零部件和终端产品等基础层，工业互联网平台、大数据平台等平台层，产业数字化、数字化治理、数据价值化等应用层，积极培育人工智能。

Deyang has formed a diversified digital industry pattern with electronic components, big data, cloud computing, artificial intelligence, e-commerce, industrial Internet and other business formats simultaneously, with an industrial scale of more than CNY 100 billion. Besides, Deyang has been selected as one of the top 100 cities for digital economy development by CCID for three consecutive years, and its Tianfu Digital Economy Index and Sichuan Digital Economy Comprehensive Development Level Assessment rank among the top three in Sichuan Province.

It focuses on the development of basic layers such as electronic components, supporting parts and end products, platform layers such as industrial internet platforms and big data platforms, application layers such as industrial digitization, digital governance and data valorization, and the active cultivation of artificial intelligence.

and Cooperation

建设条件

园区内已入驻云上天府、万石控股、海尔卡奥斯、爱奇艺等数字经济企业超100家，已在数字新基建、数字产业化、产业数字化、治理数智化、数据价值化等领域形成了较好的产业生态，项目建设用地批复已取得，水、电、气等要素保障完备，路网和地下综合管廊已建成，商业、教育、医疗卫生等生产生活配套设施齐全，入驻企业可享受德阳数字经济发展“十条措施”及德阳数字产业发展人才支持政策等。

More than 100 digital economy enterprises such as Cloud Tianfu, Wanshi Holding, Haier COSMOPlat, iQIYI and others have been settled in the Park, and a better industrial ecosystem has been formed in the fields of digital new infrastructure, digital industrialization, industrial digitization, digital intelligence of governance and data valorization. With the acquisition of the approval of the project construction land, the completion of water, electricity, gas and other elements, the completion of the road network and underground comprehensive pipe gallery, and the complete production and living supporting facilities such as commerce, education, medical and health care, the settled enterprises can enjoy the “Ten Measures” for the development of Deyang’s digital economy and the talent support policy for the development of Deyang’s digital industry.

建设内容

项目规划占地约2平方公里，建设用地面积1000亩，拟建设凤鸢湖数字经济产业园、数据要素产业园、东湖山科创基金园等特色园区，打造多元业态并举的数字产业格局。

Covering a planned area of about 2 km² and a construction land area of 1,000 mu, the project plans to build characteristic parks such as Fengzhu Lake Digital Economy Industrial Park, Data Element Industrial Park, and Donghu Mountain Science and Technology Innovation Fund Park, so as to create a digital industry pattern with multiple business formats at the same time.

CNY 1.5 billion

合作方式

独资、合资、合作、其它
Sole Proprietorship, Joint Venture,
Cooperation and Others

建设条件

项目位于绵竹市高新技术产业园中部复合功能区，坐落在川青铁路、成绵高速复线及绵茂公路的交汇区域，距成万高速路口3公里，交通便利。周边水、电、燃气、能源均得到有效保障，地块周围区域运输便利，建设环境良好，市政配套设施齐全。

Located in the central complex functional area of Mianzhu High-tech Industrial Park, situated in the intersection area of Sichuan-Qinghai Railway, Chengdu-Mianyang Expressway and Mianzhu-Maoxian Highway, and 3 km away from Chengdu-Wanyuan Expressway intersection, the project has convenient traffic. Besides, surrounding water, electricity, gas and energy are all effectively guaranteed, the area around the plot is convenient for transport, the construction environment is good, and municipal supporting facilities are complete.

建设内容

项目占地约126亩，总建筑面积67243.94㎡，包含6栋厂房，1栋生活服务用房及其他附属设备配套用房，以电子科技产业为发展支撑，纵向链条式集聚电子科技前后端及横向吸纳电子相关产商企业资源，建设科技创新型产业发展园，以电子科技、绿色生态、功能配套为功能驱动，打造现代新理念科技服务中心，发展高成长史专业精品园区。

Covering an area of about 126 mu, with a total construction area of 67,243.94 m², the project includes 6 workshops, 1 living service building and other ancillary equipment supporting buildings. With the development support of the electronic technology industry, it vertically gathers the front and back ends of electronic technology and horizontally absorbs the resources of electronics-related manufacturers and enterprises, to build a scientific and technological innovation industrial development park, and takes electronic technology, green ecology and functional supporting facilities as the function drive, to build a modern new concept science and technology service center, and develop a professional boutique park with a high growth history.

中国（西部）传感谷项目 China (West) Sensing Valley Project

拟投资额

30亿元
CNY 3 billion

合作方式

独资、合资
Sole Proprietorship and Joint
Venture

建设条件

1. 德阳高新区区位优势优越，德阳高新区距德阳市区19公里，距成都市主城区20公里，与成都市青白江城区无缝连接，距蓉欧快铁始发站仅3公里。
2. 四川省委、省政府提出大力发展存储器产业，把德阳高新区确定为四川省传感器创新中心分中心、四川省传感器产业孵化中心，赋予高新区打造“中国西部智能传感谷”的重大使命。

1. With superior location conditions, Deyang High-tech Zone is 19 km away from Deyang urban area, 20 km away from the main urban area of Chengdu, seamlessly connected with Qingbaijiang urban area of Chengdu, and only 3 km away from the starting station of Chengdu-Europe Express Railway.
2. The Sichuan Provincial Party Committee and the Provincial Government proposed to vigorously develop the memory industry, identified the Deyang High-tech Zone as a sub-center of Sichuan Sensor Innovation Center and Sichuan Sensor Industry Incubation Center, and gave the High-tech Zone a major mission of building "Intelligent Sensor Valley in Western China".

建设内容

聚焦汽车应用类传感器、高端军工航空类传感器、高性能工业应用类传感器及相关电子元器件三大发展方向，传感器研发设计、生产制造、产品检测、集成应用全产业链，加大企业招引和项目孵化力度，拓展传感器应用场景，打造以传感器及相关电子元器件为主的电子信息（传感器）特色产业基地。

Focusing on the three major development directions of automotive application sensors, high-end military aviation sensors, high-performance industrial application sensors and related electronic components, sensor R&D and design, manufacturing, product testing, and integrated application of the whole industrial chain, the Zone increases enterprise attraction and project incubation, expands sensor application scenarios, and builds an Electronic Information (Sensor) Characteristic Industrial Base based on sensors and related electronic components.

中江智能制造电子信息产业园项目 Zhongjiang Intelligent Manufacturing Electronic Information Industrial Park Project

拟投资额

30亿元
CNY 3 billion

合作方式

独资、合资
Sole Proprietorship and Joint Venture

建设条件

- 1.区位优势明显。该项目位于中江县高新区拓展区，交通条件优越，处于成都1小时经济圈内，境内高速公路里程超过180公里。
- 2.配套设施完善，要素保障完备，土地资源丰富，中江未来可提供建设用地和产业发展用地超过40万亩。
- 3.中江电子信息产业集群集聚发展，产业生态圈基本形成。目前拥有宏发电声、湧德电子、锐腾电子、博益磁材等电子元器件、电子基础材料、5G通信设备领域龙头企业。

1. Obvious location advantages. The project is located in the expansion area of Zhongjiang County High-tech Zone, with superior traffic conditions, within the Chengdu One-hour Economic Circle, and the mileage of the expressway in the territory is more than 180 km.

2. With complete supporting facilities, complete factor guarantees and abundant land resources, Zhongjiang can provide more than 400,000 mu of construction land and industrial development land in the future.

3. With the development of Zhongjiang electronic information industry cluster, the industrial ecosystem has been basically formed. At present, it has leading enterprises in the field of electronic components, electronic basic materials and 5G communication equipment such as HONGFA, Yongde Electronics, Ruiteng Electronics, Boyi Magnetics, etc.

建设内容

依托中江16万平米标准厂房，引进电子信息类产品设计、研发、生产加工、精密制造等方面企业，建设智能制造电子信息产业园。建设周期2年。

Relying on its 160,000 m² standard workshop, Zhongjiang has introduced enterprises in the design, R&D, production and processing, precision manufacturing and other aspects of electronic information products to build an Intelligent Manufacturing Electronic Information Industrial Park, with a construction period of 2 years.

建设条件

区位优势优越，交通便利，地处成德绵1小时经济圈核心地带，距中欧班列物流港约10公里，距成都双流国际机场1.5小时车程，距绵阳机场仅30分钟车程，罗江区电子信息产业园已初具规模，基础设施条件完善，已引进了一批以台湾帛汉电子、湖南艾华为代表的知名电子企业。

With excellent location and convenient traffic, it is located in the core of Chengdu-Deyang-Mianyang 1-hour economic circle, about 10 km away from the China Railway Express Logistics Port, 1.5 hours' drive from the Chengdu Shuangliu International Airport, and only 30 minutes' drive from the Mianyang Airport. Luojiang District Electronic Information Industrial Park has begun to take shape, the infrastructure conditions are perfect, and a number of well-known electronic enterprises represented by Taiwan Bothhand Electronics and Hunan AIHUA have been introduced.

建设内容

项目规划占地1500亩，建设周期预计12个月，将建设高端电子信息产业园，建设内容包括生产加工区、应用研发区和综合服务区等，主要引进智能手机、平板电脑、无人机、智能电网装备的电子元器件及智能芯片等电子信息类研发制造企业，实现该产业的延链补链。

With the planned area of 1,500 mu, the construction period of the project is expected to be 12 months. It will build a High-end Electronic Information Industrial Park, including a production and processing area, an application R&D area and a comprehensive service area, etc. It mainly introduces electronic information R&D and manufacturing enterprises such as smart phones, tablet computers, UAV, electronic components and smart chips of smart grid equipment, so as to realize the extension and supplement the chain of the industry.

现代服务业

MODERN SERVICE INDUSTRY

全省首批服务业综合改革试点城市，服务业增加值、商品及服务消费人均规模长期保持在全省前列，初步构建起集商贸、金融、文化、职教、科技、商务、会展等服务产业集聚发展的新格局。

重点发展生产性服务业，推动现代物流、特色金融、科技服务等重点产业与先进制造业深度融合，支持龙头骨干企业向集成服务商、系统解决方案提供商转型。发展现代商贸、特色餐饮、家庭社区重点行业等生活性服务业。

As one of the first batch of pilot cities for the comprehensive reform of the service industry in the province, the city witnesses its added value of the service industry and the per capita scale of goods and service consumption have been in the forefront of the province for a long time, and a new pattern of agglomeration and development of service industries such as commerce, finance, culture, vocational education, science and technology, commerce, and exhibition has been initially constructed.

It focuses on the development of productive service industry, promotes the deep integration of key industries such as modern logistics, characteristic finance, and scientific and technological services with advanced manufacturing, and supports the transformation of leading and backbone enterprises into integrated service providers and system solution providers. Besides, it also develops modern commerce, special catering, family community key industries and other life service industries.

继光湖红色文化旅游区建设项目 Jiguang Lake Revolutionary Cultural Tourism Zone Construction Project

拟投资额

50亿元
CNY 5 billion

合作方式

独资、合资
Sole Proprietorship and Joint Venture

建设条件

- 1.湖区气候温和，雨量充沛，四季分明，山林茂密，田园风光浓郁，是观光度假的好去处。2018年2月被评为“四川省级水利风景区”；
- 2.交通便利，继光湖距中江县城22公里，德阳64公里，成都100公里，经过多条高速干线；
- 3.项目周边可供选择拓展旅游线路较多，有继光故居、继光故居拓展项目、继光花溪地旅游度假区等景点，邻近仓山古镇、太安桃花谷景区。

1. The lake area has a mild climate, abundant rainfall, distinct four seasons, dense mountains and forests, and rich pastoral scenery, which is a good place for sightseeing and vacation. In February 2018, it was rated as "Sichuan Provincial Water Conservancy Scenic Area".
2. Convenient transportation. Jiguang Lake is 22 km away from Zhongjiang County urban area, 64 km away from Deyang, 100 km away from Chengdu, with a number of high-speed trunk lines passing through;
3. There are many tourist routes to choose from around the project, including Huang Jiguang's Former Residence, Huang Jiguang's Former Residence Expansion Project, Jiguang Huaxidi Tourist Resort and other scenic spots, adjacent to Cangshan Ancient Town and Tai'an Peach Blossom Valley Scenic Area.

建设内容

项目规划用地1000亩，依托继光湖水体资源及自然环境，建设以滨水度假、垂钓、农业休闲为核心的生态旅游区。新建旅游码头及步行街（接待商务中心）、森林度假别墅酒店、半岛酒店、综合游乐园、漂流水道等。项目建设周期约5年。

With a planned land of 1,000 mu, relying on the water resources and natural environment of Jiguang Lake, the project will build an eco-tourism area with waterfront vacation, fishing, and agricultural leisure as the core, and build a new tourist wharf and pedestrian street (reception business center), forest resort villa hotel, Peninsula Hotel, comprehensive amusement park, drifting waterway, etc. The construction period of the project is about 5 years.

建设条件

紧邻德阳主城区，配套设施完善；气候条件优越，生态环境好，森林覆盖率64%，湖面广阔，水量充沛，是休闲旅游、修养身心的天然氧吧；交通位置优越，距成都、绵阳3个机场车程均为1小时，距离京昆高速入口仅2公里，成都三绕入口仅6公里，德阳高铁站仅5公里；项目控制性详细规划、征地拆迁已完成，城市道路已引入到项目地块。

The project is close to the main urban area of Deyang and has complete supporting facilities. With superior climatic conditions, good ecological environment, forest coverage rate of 64%, vast lake surface and abundant water, it is a natural oxygen bar for leisure tourism and physical and mental rejuvenation. Besides, with superior transportation location, it is 1 hour's drive from the 3 airports in Chengdu and Mianyang, only 2 km from the entrance of Beijing-Kunming Expressway, only 6 km from the entrance of Chengdu Metropolitan Circle Loop Expressway, and only 5 km from the Deyang High-speed Railway Station. The detailed planning of the project control, land acquisition and demolition have been completed, and urban roads have been introduced into the project plot.

建设内容

项目用地约316亩，拟建设养老社区、颐养中心、诊疗中心、护理中心、老年大学、培训中心、银发产业园、数字生命馆及滨水酒店等内容，其中养老社区规划约2500张床位。建成后将成为能提供诊疗、理疗、护理、饮食起居照护、介护陪护、护理培训、旅居酒店等服务于一体的智慧康养综合社区。

With a land area of about 316 mu, the project plans to build an elderly-care community, a care center, a diagnosis and treatment center, a nursing center, a university for the elderly, a training center, a silver-haired industrial park, a digital life hall and a waterfront hotel, of which about 2,500 beds are planned for the pension community. After completion, it will become a smart healthcare comprehensive community that can provide services such as diagnosis and treatment, physiotherapy, nursing, dietary and daily care, nursing escort, nursing training, and hotel accommodation.

孝泉文化古镇旅游综合开发项目

Xiaoquan Cultural Ancient Town Tourism Comprehensive Development Project

拟投资额

6亿元
CNY0.6 billion

合作方式

独资、合资
Sole Proprietorship and Joint Venture

建设条件

孝泉镇历史悠久、环境优美，是中国古代二十四孝之一姜诗故里，拥有国家重点文物保护单位龙护舍利宝塔等一大批文物古迹。邻姑泉水系贯穿全镇，作为纽带串联起孝泉古镇各个景点。同时，旌阳区地热水资源丰富，邻近孝泉拥有2处地热水温泉，每天涌水量超过600立方米，出水口温度高达93℃，文化休闲游极具开发价值。

With a long history and beautiful environment, Xiaoquan Town is the hometown of Jiang Shi, one of the 24 filial pieties in ancient China, and has a large number of cultural relics and historic sites such as the Longhu Sarira Pagoda, a national key cultural relics protection unit. The water system of Lingu Spring runs through the whole town, as a link to connect the various scenic spots of Xiaoquan Ancient Town. At the same time, Jingyang District is rich in geothermal water resources, and there are two geothermal hot springs near Xiaoquan, with a daily water inflow of more than 600 m³ and a water outlet temperature of up to 93 °C, showing a cultural and leisure tourism of great development value.

建设内容

项目总投资12亿元，占地面积约1000亩，主要建设德孝城文化产业园、武圣宫、邻姑泉、半边街、游客接待中心及相关旅游配套、500亩文旅生活社区等，构建“旅游+商业+养老产业”的功能体系，预计每年旅游产业收入可达9000万元。

The total investment of the project is CNY 1.2 billion, covering an area of about 1,000 mu, mainly building Dexiao City Cultural Industry Park, Wusheng Palace, Lingu Spring, Banbian Street, Tourist Reception Center and related tourism facilities, 500 mu of cultural tourism life community, etc., to build a functional system of "tourism + business + elderly-care industry", and it is expected that the annual tourism industry income can reach CNY 90 million.
